

## Ideation Phase

### Define the Problem Statements

|                      |                                                                                          |
|----------------------|------------------------------------------------------------------------------------------|
| <b>Date</b>          | 18 July 2026                                                                             |
| <b>Team ID</b>       | SWTID-2026-2426                                                                          |
| <b>Project Name</b>  | Food Ordering Behaviour and Consumer Trends: A Structured Analysis of Choices and Habits |
| <b>Team Members</b>  | Gorentla Sri Chaitra, Chandhana K                                                        |
| <b>Maximum Marks</b> | 2 Marks                                                                                  |

#### Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

|                            |                                                                                                       |                                                                             |
|----------------------------|-------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------|
| <b>I am</b>                | <i>Describe customer with 3-4 key characteristics - who are they?</i>                                 | Describe the customer and their attributes here                             |
| <b>I'm trying to</b>       | <i>List their outcome or "job" the care about - what are they trying to achieve?</i>                  | List the thing they are trying to achieve here                              |
| <b>but</b>                 | <i>Describe what problems or barriers stand in the way - what bothers them most?</i>                  | Describe the problems or barriers that get in the way here                  |
| <b>because</b>             | <i>Enter the "root cause" of why the problem or barrier exists - what needs to be solved?</i>         | Describe the reason the problems or barriers exist                          |
| <b>which makes me feel</b> | <i>Describe the emotions from the customer's point of view - how does it impact them emotionally?</i> | Describe the emotions the result from experiencing the problems or barriers |

#### Example:

| I am       | I'm trying to            | But                  | Because                                      | Which makes me feel |
|------------|--------------------------|----------------------|----------------------------------------------|---------------------|
| a traveler | book flights on my phone | it takes a long time | responsive and doesn't have a mobile version | Frustrated          |

#### Customer Problem Statements

| Problem Statement (PS) | I am (Customer)                                                                                        | I'm trying to                                                               | But                                                                                                                              | Because                                                                                             | Which makes me feel                       |
|------------------------|--------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------|-------------------------------------------|
| PS-1                   | A working professional aged 25–35 who orders food on most weekdays due to a busy schedule              | Get a satisfying meal delivered quickly without spending much time deciding | The app shows too many options, delivery times are inconsistent, and the final price often differs from what was shown initially | Menus aren't personalized to past orders, and platforms add delivery/platform fees only at checkout | Frustrated and rushed                     |
| PS-2                   | A budget-conscious college student who orders food occasionally for group meals or late-night cravings | Find the most affordable meal option with the best available deal           | It's hard to compare prices, discounts, and delivery fees across different food ordering apps                                    | No single platform shows the true final cost upfront or compares offers across apps                 | Overwhelmed and unsure about overspending |
